bulbs. per qt \$10.00

DELEPHINIUM Clarke Hybrids

Here is a superior cut flower strain, and I have grown most all colorized strains. Florets are hung very close on a very long flower neck making a desirable shipping type. Has a very wide color range including some rare colors. We have a few hundred August sown seedlings at \$4.95 per 100. Last fall gathered seed @ \$3.50 per 1000 and \$5.00 per ounce while it lasted.

SUGGESTIONS FOR IMPROVEMENT

In the Florists' Summer Cut Flower Supply

Offer your customers something new this year! Why use the same old varieties year in and year out, when so many new ones are being offered to the trade? You can't fill every basket with Picardy and expect your customers to be satisfied. Too much of a good thing eventually ruins itself.

Set aside a small plot back of your greenhouses and plant these collections. You may have your own cut flowers from June 1 until late in the fall.

YOU CAN RAISE THESE OUT-DOOR FLOWERS
CHEAPER THAN YOU CAN BUY THEM
BECAUSE:

You Have Them When You Want Them.

Fresh Cut Flowers Are Better.
